EMERGING REAL ESTATE MARKET INTELLIGENCE

Welcome to the seventh in a series of special reports produced exclusively by Cityscape Intelligence, which provides an in-depth look at the current state of business to business real estate in the emerging markets. Focus On Asia breaks down key trends and statistics on Foreign Direct Investment (FDI) from the Financial Times and investigates the economic outlook and forecast for Asia in 2010 and beyond.

The report also examines Asian sustainable development and what the future holds, provides details on the current overheating residential real estate situation in Singapore and consequent government intervention, an update on Iskandar investment and development and gives an overview on real estate in Thailand.

Key, accurate, intelligence is more important than ever during these times of global financial uncertainty and our report aims to provide you with insight, intelligence and food for thought. We trust that you find it informative and enlightening and we look forward to hearing your comments
